PROFESSIONAL SUMMARY

Motivated and detail-oriented Information Technology graduate with hands-on experience in technical support, system troubleshooting, and web-based project development. Skilled in diagnosing technical issues, supporting end users, and maintaining system functionality in fast-paced environments. Demonstrates strong problem-solving, communication, and teamwork skills with a commitment to continuous learning and professional growth. Seeking an entry-level IT position where technical and analytical abilities can contribute to organizational success.

WORK EXPERIENCES

IT Support Intern Concentrix Alabang | Sept 2025 - Feb 2026

- Delivered first-level technical support by diagnosing and resolving hardware, software, and network issues, ensuring efficient end-user assistance and high service quality
- Managed and documented incidents and service requests following SOPs, performed workstation configuration, software installation, user account support, and basic network troubleshooting
- Escalated complex issues to Tier 2 support teams while gaining early exposure to advanced troubleshooting, applying structured problem-solving techniques, and communicating effectively with users to ensure timely resolution

PROJECTS

MuntiCare: A Smart Healthcare Management System For City Health Office of Muntinlupa

- Developed a web-based healthcare system using Laravel, Bootstrap, and MySQL with modules for EMR, appointments, and inventory
- Implemented system features and performed debugging, testing, and optimization for improved performance
- Applied analytical and problem-solving skills to design solutions aligned with real-world IT environments

EDUCATION
